(54) Title: SOUND-ABSORBING STRUCTURE AND SOUND-ABSORBING UNIT

(57) Abstract: Sound-absorbing unit is provided with a high sound-absorbing/insulating capability. The sound-absorbing unit (60) includes a corrugated partition plate (52) whose antinode portions (52a, 52b) extend in a first direction (Y); a sound-absorbing material (51) provided on the corrugated partition plate (52); and a second partition plate (53) which extends in a second direction (X) and which partitions air portions (70) defined between the corrugated partition plate (52) and the sound-absorbing material (51).
